

Agri-Food and Biosciences Institute data release form  
for Bovine Viral Diarrhoea (BVD) virus laboratory results

I \_\_\_\_\_, request that the Agri-Food and Biosciences Institute- Veterinary Sciences Division, transfer my herd's Bovine Viral Diarrhoea virus laboratory test results to the AHWNI Cattle Health database.

Address: \_\_\_\_\_

Telephone number: \_\_\_\_\_

Herd number(s): \_\_\_\_\_

Signature: \_\_\_\_\_ Date: \_\_\_\_\_

**Note:** Only results from January 2012 onwards will be transferred, **providing** they have full ear tag numbers.

You may also request specific case numbers to upload (e.g 2013-123456): \_\_\_\_\_

I have joined the voluntary phase of the BVD program. Yes  No  (Please tick)

If yes please provide date and/or tag supplier used \_\_\_\_\_

Please note the following in relation to the acceptance of these results onto the database:

- Results will only be accepted for animals that are still present in the client herd at the time of transfer
- Accepted historical results will not result in any change to the status of other related animals that are present in the herd at that time (e.g. assigning an indirect negative status to the dam of an animal with a negative test result).

**DATA PROTECTION AND FREEDOM OF INFORMATION ISSUES** AFBI takes data protection and freedom of information issues seriously. It takes care to ensure that any personal information supplied to it is dealt with in a way which complies with the requirements of the Data Protection Act 1998. This means that any personal information you supply will be processed principally for the purpose for which it has been provided. However, the AFBI may also use it for other legitimate purposes in line with the Data Protection Act 1998 and Freedom of Information legislation. These include: administration of the Common Agricultural Policy and other aid schemes; the production and safety of food; management of land and other environmental controls; Animal health and welfare; occupational health and welfare; compilation of statistics; disclosure to other organisations when required to do so; and disclosure under the Freedom of Information Act 2000 or the Environmental Information Regulations 2004 where such disclosure is in the public interest. AFBI may use samples submitted for diagnostic testing for further disease surveillance or research work. This includes looking for new or emerging diseases or infectious agents and monitoring changes in disease patterns.
