

Vaccinated Monitored Free programme

Accreditation Step 1 – Check test

Accreditation step 2 – Check test on following year's calf crop

Evidence of infection. Herd enters Screening and Eradication Programme (Dairy or Beef)

Achieve Accreditation (if no other evidence of active BVDV infection in herd)

Maintain Accreditation:

- Pass annual check tests on each successive calf crop.
- Carry out reproductive failure and clinical disease testing.
- Test all bought in stock.
- Vaccinate breeding herd as per manufacturer's instructions
