Subject: RE: GPS HoB's and Farm posts

Thanks Stanley

All of the below was done last year but certainly needs a refresh with the passage of time.

Much appreciated

Elizabeth

Subject: FW: GPS HoB's and Farm posts

HR

I am content to approve the attached request.

Elizabeth – as discussed yesterday content to approve the attached request but to pick up a few of the points we discussed yesterday, a critical focus of the post must be on reviewing and seeking efficiency savings across the various farm platforms.

A few other points

* Given that this is a structural change within the branch a level of consultation with those potentially impacted is required including HoBs, Head of Estates and the various farm groups.

Fiona can advise re TUS

* If you haven't already, clarity of roles and responsibilities re estates and Divisional and Branch business and line management arrangements across the two branches named will be important

Can I leave with you to take forward with HR & Fiona but would appreciate sight of the CIB before it issues and assurances / clarity around the various line management and reporting structures.

Thanks

Stanley

Stanley

As discussed yesterday please find attached VAF's for the posts we discussed. The farm post was jugs and confirmed as grade 7 last year and while I need to check with HR I am assuming a jugs is not required for the HoB posts as they are akin to current HoB posts.

Grateful if you could consider approval of the attached

Elizabeth
